

Acknowledgement

The Organising and Scientific Committee of the 6th International HCH and Pesticides Forum would like to thank all the people and institutions for a nice cooperation during preparatory work for the Forum.

We warmly appreciate all sponsors - without your help the Forum wouldn't have been possible.

The Forum and this book are the result of the joint efforts of many people involved in the problem of obsolete pesticides located all over the world.

A sustainable solution is very much needed for our environment.

Great thanks to all of you!!!

We like to thank Ms. Ebtasam El Bastawy, from Egypt, who during her stay in Denmark has been making long nightly hours to help editing many of the contributions for the book.
